

COVER KIT - INTAKE MANIFOLD
PN: 92295830

Content:

Description	QTY
Intake Manifold Cover	1
Fitting Instruction	1

NOTES: Read instruction carefully before installation.

1. Remove existing intake manifold cover from engine by pulling upwards.
2. Locate accessory intake manifold cover (1) in position by ensuring the underside mounting clips are aligned to their appropriate mounting locations on the engine fuel rail (2). Check that the positioning clip (3) is correctly located.
Refer to figure 1.
3. Fit the accessory intake manifold cover by exerting sufficient downward pressure above the clip locations to ensure all clips are fully engaged.

CAUTION:
Check the intake manifold cover is securely fitted and all mounting clips are fully engaged.
