

**Carpet Retainer**

**A**

**B**

**C**

1. Remove current sill plate by applying upward force starting at the front of the part and working rearward. Repeat on other side.

2. Identify correct components for each side.

3. Position parts so clips line up with slots in vehicle. Snap front clip first working rearward until part is fully secure.  
**NOTE:** Door seal may have to be rolled outboard to insure proper installation.

4. Repeat on other side.

5. Repeat on other side.

6. **NOTE:** Extended Cab application sill plates should be aligned to center seat belt trim prior to snapping in place.

7. Once parts are fully installed, remove protective film. **DO NOT USE ANY SHARP TOOLS.** Repeat on other side.

**Dispositif de retenue de tapis**

1. Retirer l'enjoliveur d'entrée de porte existant en exerçant une force ascendante depuis l'avant de la pièce vers l'arrière. Reprendre sur l'autre côté.

2. Identifier les composants exacts pour chaque côté.

3. Mettre les pièces en position de manière à ce que les attaches soient alignées avec les fentes dans le véhicule. Encliqueter les attaches, depuis l'attache avant vers l'attache arrière, jusqu'à ce que la pièce soit entièrement fixée.

**NOTA :** Il se peut qu'il faille faire rouler le bourrelet d'étanchéité vers l'extérieur pour s'assurer d'une installation appropriée.

4. Reprendre sur l'autre côté.

5. Reprendre sur l'autre côté.

6. **NOTA :** Les enjoliveurs d'entrée de porte des véhicules à cabine allongée doivent être alignés avec la garniture de ceinture de sécurité centrale avant de les encliquer.

7. Enlever la pellicule protectrice une fois que les pièces sont complètement installées. **NE PAS UTILISER D'OUTILS POINTUS.** Reprendre sur l'autre côté.

**Retenedor de alfombra**

**A**

**B**

**C**

1. Retire la placa de umbral actual aplicando fuerza hacia arriba empezando en la parte delantera de la parte y avanzando hacia atrás. Repita en el otro lado.

2. Identifique los componentes correctos para cada lado.

3. Coloque las partes de manera que los sujetadores estén alineados con las ranuras en el vehículo. Coloque a presión el primer sujetador delantero y trabaje hacia atrás hasta que la parte esté completamente segura.

**NOTA:** Es posible que sea necesario enrollar hacia afuera el sello de la puerta para asegurar la instalación correcta.

4. Repita en el otro lado.

5. Repita en el otro lado.

6. **NOTA:** Las placas de umbral de aplicación de la cabina extendida deben alinearse con el acabado del cinturón de seguridad central previo a la fijación en su lugar.

7. Cuando las partes estén completamente instaladas, retire la película protectora. **NO UTILICE NINGUNA HERRAMIENTA AFILADA.** Repita en el otro lado.
