Qty	Description
1	SD Card Reader Hub
1	Navigation SD Card
1	Installation Instructions

Procedure

Note: The USB hub is located in the forward bin of console under door.

1. Using a suitable plastic flat-bladed tool starting at the top side of USB hub, pry USB hub (1) away from console bin and disconnect electrical connectors (2).

2. Locate SD card reader Hub (1) provided in kit and connect electrical connectors (2). Position the SD card reader Hub (1) to the opening in forward bin of console until it snaps into place.

3. Insert SD card (2) into slot (3) of USB/SD Card interface (1).

Calibrations and Final Steps

- With the support of the Tech Line, download the new NAV calibration to support the new NAV feature.

Note: The installation of this accessory NAV update kit requires programming and configuring of the vehicle. This is done with a Service Programming System (SPS-TIS2WEB). Call TCSC to obtain a VCI number. United States 1-888-337-1010 Canada (English) 1-800-828-6860
